

SERVING THOSE WHO SERVE US ~ MCCS

OUR MISSION

“To provide behavioral health prevention services that will promote protective factors for service members and their families while reducing risk factors in domestic violence, child abuse, suicide, and substance abuse incidents.”

COMMUNITY COUNSELING PROGRAM

CCP offers counseling services with a holistic approach to support service members and families in overcoming life's most difficult challenges by developing new coping skills and increasing resilience.

Services include:

- Screenings, Assessments, & Referrals
- Case Management
- Individual, Couples, & Family Counseling
- Briefs, Workshops, & Trainings

Walk-in Screening Hours:
Monday-Friday 0800-1500

(Couples please present together for marital screenings)

FAMILY ADVOCACY PREVENTION & EDUCATION

Family Advocacy Program has a wide range of prevention and education services for the whole community to include anger and stress management, parenting education, healthy relationships and unit and community education briefs.

SUBSTANCE ASSESSMENT & COUNSELING CENTER

SACC promotes operational readiness, health and wellness through substance abuse prevention, early intervention, and treatment services. SACC provides a continuum of substance abuse treatment and prevention services that are individualized and tailored to meet the specific needs of service members, retirees and family members who are 18 years and older.

Services include:

- Substance Abuse Screening, Assessment, & Referrals
- Individual, Group, Couples, and Family Counseling
- Early Intervention Services
- Alcohol and Drug Prevention Education
- Unit Trainings and Briefs

NEW PARENT SUPPORT PROGRAM

NPSP is a voluntary, strength-based parent education program delivered through support, secondary prevention, home visitation services, parent support groups, and resource and referral. Expecting parents and families with children from birth to five years of age are eligible.

Services include:

- Information and Referral
- Home Visitation
- Lactation Consultation
- Groups and Classes
- Women Infant and Children (WIC)

MARINE INTERCEPT PROGRAM

MIP is a suicide prevention initiative to provide support and resource assistance to Marines/Sailors who have had recent issues around suicidal thoughts or attempts. CCP counselors coordinate with command to reach service members to ensure they are linked to the appropriate behavioral health resources, assess current suicidality, complete safety plans as needed, and provide support through caring contacts.

FAMILY ADVOCACY PROGRAM

Promotes healthy military family development through prevention, identification, treatment of intimate partner violence, and child abuse and neglect. FAP stresses early intervention and education to protect victims and increase family competencies.

FAP aims to prevent and or reduce incidences of family violence and increase operational readiness by improving family relationships.

Services include:

- Information and Referral
- Clinical Assessments
- Prevention & Safety Planning
- Case Management
- Individual, Couple, & Family Counseling
- Groups for Men and Women

VICTIM ADVOCACY

Victim advocates provide information, guidance and support to victims and will respond to incidents of domestic violence 24/7 through the helpline **808-216-7175**. There are two reporting options for domestic violence. Unrestricted reporting allows victims of domestic violence to receive support, guidance and intervention to include command and law enforcement support. Restricted reporting allows victims to receive confidential support without law enforcement or command intervention.
