WATER SAFETY

@mccshawaiwatersafety

It's important to know the location of the lifeguard stations (Pyramid Rock and North Beach) and stay close to them for safety (200 yards). Stay within the designated swim area, so lifeguards can assist you in case of an emergency. Never swim alone. Always keep young children and persons with limited swimming ability within arm's reach, even in the shoreline. Drownings can happen in as little as 30 seconds or less. Lifeguards are on duty from 1100-1730, when staffing allows. Swim/surf at your own risk at other times and/or at unguarded coastal locations.

KNOW YOUR FLAGS

Beach conditions are often communicated through a flag system using white, yellow, and red flags. It's important to pay attention to these flags for your safety while enjoying the beach.

- **White Flag** (rarely exist) — Calm Conditions – Water activities open, surf and currents are moderate.
- **Yellow Flag** — Caution is advised – Water activities open, fins are required when swimming due to high surf or strong currents.
- **Red Flag** — Ocean conditions unsafe - DO NOT ENTER WATER. Beach is open, but use caution.
- **Black Flag** — Unsafe conditions - water and beach closed.
